BILLY BOB'S EX: NEW LIPS?

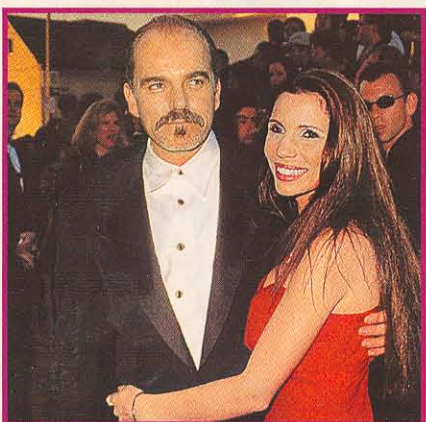

BEFORE
PRETTY
PUCKER, 2001

NOW TROUT POUT, 2005

Hmm...
What has
she done?

Billy Bob Thornton and Pietra Dawn Cherniak at the SAG Awards in L.A., July 7, 1997.

ANGELINA JOLIE isn't the only ex of **Billy Bob Thornton** with beesting lips! Former *Playboy* model **Pietra Dawn Cherniak** (who wed Thornton in 1993 and split from him in 1997) seems to have super-sized her kisser! *Star* asked Beverly Hills plastic surgeon Dr. Robert Calabria what he thinks she's done to get that plump pucker.

LIP FILLERS?

Pietra's lips are simply "too big," says Dr. Calabria, who has not treated her. He thinks she's either had a permanent filler such as silicone or a semi-permanent filler like Restylane. If permanent, "[the swelling] will not come down over time," he warns. He says semi-permanent fillers are a better bet for most. "If the patient doesn't like the results, it's easily fixable."

FAT INJECTIONS?

Dr. Calabria thinks Pietra's face is fuller than it used to be. "I think it's reasonable to think she's had some fillers on her face," he says. He believes she's probably had fat fillers to give her a "plumped up" look and erase wrinkles. "Bringing volume back into a face brings a more natural, younger look," he notes, but he says if Pietra has had fillers, she should stop here.
